

**London Aortic Symposium:
Cutting Edge**
**Thursday 12th & Friday 13th
October 2017**
**The Royal Society of Arts,
London**

The annual meeting of all major London Vascular Centres will bring together a national and international faculty known to be key opinion leaders in aortic intervention and experts at the cutting edge of aortic treatment methods, surgery, and training. The programme will provide high quality education and learning within this specialist field.

Cutting Edge

Highlights include:

- Imaging of aneurysms: An 'evidence based' approach
- Juxtarenal aneurysms: How I do it
- Challenging aneurysms: How should I manage them?
- Video Tips and Tricks on Percutaneous Access; Iliac Branch Grafts and Cannulation of the contralateral limb
- Preparing to be a consultant: Configuration and commission of vascular services & preparing for the exam

Guest lectures:

- When to operate on the aorta? It's not all about size:
Professor Rob Hinchliffe
- The RCT's: How do we apply them to our contemporary practice?:
Professor Rob Sayers

What delegates said about the 2016 meeting:

- “A brilliant educational opportunity for the trainees”
- “Excellent experience to keep up to date and learn new things as well as for meeting colleagues and networking”
- “Great presentations and speakers, variety of topics and important information”
