

Human + machine: clinician-led AI for tomorrow's healthcare

2nd Annual Global AI Conference 2026

29-30 June 2026
QEI Centre
London and Online

Artificial intelligence is rapidly transforming healthcare, reshaping systems and empowering clinicians. As AI quickly evolves, it's crucial for healthcare professionals to understand its possibilities and risks.

Join us to discuss its safe, ethical, and evidence-based integration, as we connect and explore the future of AI in healthcare together.

**Registration now open: book at super
early bird rates and save up to £125**
