Yellow Badge = Junior

Green Badge = Nurse/Radiographer

4TH ANNUAL PAEDIATRIC IR UK MEETING

Monday 27th June 2022

Innside Hotel, Manchester M15 4RP

LEARNING OBJECTIVES:

Session 1: Paediatric IR in detail

- To gain an understanding of the role of IR in the investigation and management of renovascular hypertension in children.
- To become familiar with approaches to paediatric vascular access.
- To improve knowledge of radiation dose and ways of minimising this in paediatric IR.

Session 2: Building a PIR practice

- To understand the factors involved in designing a paediatric IR department.
- To highlight the importance of hospitals investing in paediatric IR and develop insights into building your business case.
- To appreciate common PIR challenges faced by adult interventionalists and creative ways to meet some of them.
- To improve your skills and lose some of your anxiety about communicating with families of sick children.

Session 3: Vascular malformations

- To understand some of the issues involved in living with a vascular malformation from a patient and parent's perspective.
- To improve your understanding of the different types of vascular malformations and their management.

Session 4: How I do it – Quick-fire PIR toolkits

- To gain practical tips on how to approach several different paediatric IR interventions and broaden your skillset.

4TH ANNUAL PAEDIATRIC IR UK MEETING

Monday 27th June 2022

Innside Hotel, Manchester M15 4RP
