

**VASCULAR ANOMALIES
SPECIAL INTEREST GROUP
(VASIG)**

3rd Sept 2021

Dear Friend,

You are invited to attend

VASIG 2021: October 12-14th incl. 6-8pm (London time)

Autumn is upon us and so is the annual educational meeting of VASIG (Vascular Anomalies Special Interest Group).

Last year we were deep in lockdown and went online for the first time, Zooming together across the world and achieving a successful if virtual, VA educational “group hug”.

300+ delegates enjoyed the spectacular International Fantasy Faculty including Prof Wayne Yakes well-behaved little comfort dog ‘Coco’ who may join us again this year (?)

Online VASIG is held over three days, in short, sharp (2 hour) sessions timed to include delegates from around the world with as much comfort as possible. It is moderated live to maximise participation of delegates and interaction with Speakers.

It remains **free** to delegates as we have been fortunate to achieve sponsorship to cover basic costs.

6 CPD points are available to registered participants via the BSIR website as a certificate.

See attached summary flyer of programme.

Please register by emailing Mr Calum Charles at: calum.charles@nhs.net

Very best wishes

Joe
